HR

### SUMMARY

I am a professional Senior Software Developer with 8 years of robust experience in creating scalable web applications. I excel in various front-end technologies, including React.js, and have a deep understanding of software development life cycles. My goal is to innovate and develop user-centric software solutions, continuously improving designs and architectures to meet evolving client needs.

### EXPERIENCE

#### Senior Consultant

##### Infosys

📅 07/2024 - 09/2024

Consultant

- I was on probation period

#### Senior Software Developer

##### Zenesys Technologies Private Ltd.

📅 10/2023 - 03/2024

Senior Software Developer

- Communicate with clients, gather information and convert into functionality.
- Implement IndexDB, use lazy loading, and code split for performance.
- Work in Agile environment.
- Support continuous improvement by investigating alternatives and technologies and presenting these for architectural review.

#### Senior Frontend Developer

##### TechQWare Technologies Private Ltd.

📅 03/2021 - 07/2023

Senior Frontend Developer

- Develop high-quality software design and architecture.
- Execute tasks in the software development lifecycle.
- Develop tools and applications by producing clean, efficient code.
- Review and debug code.
- Work in Agile environment.
- Implement common security patterns i.e., JWT, use lazy loading, and code split for performance.
- Support continuous improvement by investigating alternatives and technologies and presenting these for architectural review.

#### Senior Software Developer

##### Rovi91 Innovations Pvt Ltd

📅 09/2019 - 02/2021

Senior Software Developer

- Hands on experience in designing and developing applications using MERN technologies.
- Experience with test-driven development.
- Contribute to all phases of the development lifecycle.
- Write well-designed, testable, efficient code.
- Ensure designs are in compliance with specifications.
- Support continuous improvement by investigating alternatives and technologies and presenting these for architectural review.

#### Software Engineer

##### OnGraph Technologies Limited

📅 01/2016 - 09/2019

Software Engineer

- Hands on experience in designing and developing applications using React.js technologies.
- Experience with test-driven development.
- Gather information from clients and convert them into DFD and then implement accordingly.

### KEY ACHIEVEMENTS

#### Delhi Metro Official Site

Successfully reconstructed the old Delhi Metro site in ReactJs, significantly enhancing user experience and performance.

### SKILLS

Agile Azure Cloud CI/CD CSS

Git GraphQL HTML IoT

Javascript Material UI MySQL

Next.js NodeJS Reactjs Redux

restful apis Vue.js

### PROJECTS

#### GreatGuides

GreatGuides is an adventure travel site.

- Adventure travel site for booking guides before traveling.
- Includes all adventures and activities.

#### Vehicle Monitoring System

Vehicle Monitoring System for AUDI, VW, SKODA.

- IOT based platform exclusively for internal factory use.
- Features include device listing, searching, filtering, and CRUD operations.
- Can generate XLS, DOC, and DOCX of cars.
- Operates in offline mode in an intranet environment.

#### Educative

Platform for online studies and tutorials.

- Provides online study material (textbooks, videos) and an online code editor.
- Aimed at online preparation for various courses.

#### Delhi Metro Official Site

Official site for Delhi Metro.

- Reconstruct old Delhi metro site using ReactJs.
- Use SVG to show the route between stations.
- Localization of data in Hindi and English.
- Inject whole HTML coming from API to React Component.

#### Sticky Guide

E-commerce application for narcotics.

- E-commerce website for selling narcotic products online.
- Increased search and filtering speed of products.

## EDUCATION

---

Master of Computer Application

[Uttar Pradesh Technical University](#)

📅 08/2016 - 05/2018

## INTERESTS

---

**Playing Table Tennis**

Enjoys playing table tennis and competitive sports.
